

Module title	Technological Modernization and Globalization – RWTH Aachen			
Identifier	7800025			
Duration (Semester)	one semester			
Cycle (Semester)	winter semester			
Valid from				
Valid until				
Module level	Master			
Content	Science and technology are reflected upon as driving forces of globalization in their occidental origin and the resulting strategies of inculturation in non-European contexts. The focus is on contextual theologies that are dedicated to the examination of phenomena of social modernization through technology.			
Learning Objectives/ Learning Outcomes	Students will be familiar with exemplary contextual theologies. They understand their self-image and the consequences for the church and society in modernity and postmodernity.			
(Study-Specific) Prerequisites	Basic understanding of ethical and theological issues
